

VISITOR BADGE PRINTING

Visitor Badge Printing

In The modern world security has become a major concern for every organization. Government organization, Public Buildings, Schools, Corporate Offices, Defense Establishments, and Residential Apartments etc the level of security needs might differ but effectively security management is the need of the day.

A great deal may have been spent on security systems like Surveillance Cameras, Access Control system etc, but if you do not manage your visitors, you have left a vulnerable gap in your security. A visitor who is stranger to the organization needs a monitoring from the security perspective. Typically organization keeps a register or a book (visitor register or visitor book) in which the visitor would scribble his/her details and a temporary badge or sticker is pasted or some visitor card is given to the visitor. When it comes to view the past details/visit, it turns to be time consuming, unreliable, error prone and manual dependent operation.
