

**An integrated retail cash
management solution brings
greater efficiency at lower cost**

Manual cash operations: Several challenges

Handling in-store cash often presents challenges and extra costs for retailers. Manually handling, counting, reconciling, and depositing cash everyday, or multiple times a day can be expensive.

Time and costs for reconciliation and transportation

Inefficient cash flow management due to no visibility and control of cash levels

Manual cash handling is a resource drain

Slow and cumbersome reconciliation process

Efficient Retail Cash Management Solution

An integrated cash management solution today is changing the game. Retailers can now improve cash management with processes that are easy to track, manage and implement across locations

Increased operational efficiency by maximising cash flow for improved working capital

Higher security through on-premises automated cash management solution

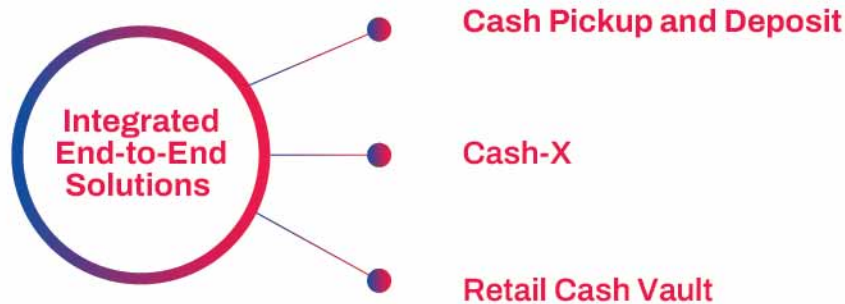

Loss prevention through reduced shrinkage and faster reconciliation

Optimised cash cycle monitoring with on-demand reporting module

Maximising value for the Retailers every day for the last 14 years

Our integrated Retail Cash Management (RCM) solution seamlessly integrates business needs and offers efficiency in cash flow, eliminates human errors, and provides centralised visibility of cash during transit with real time automated reporting.

Our RCM solution ensures the safety of cash, right from the store to the bank deposit, and our deep-rooted network across cities and towns ensures that new pickup points are built into the route map allowing service to reach the remotest of areas.

India's largest cash logistics company

Managing currency throughput Of ₹ 12.7 lakh crore annually

Serving 52,000+ retail points

Deepest on-ground network across 97% Indian districts

Customer use cases

- **Leading NBFC**
Retail cash vault solution is deployed at a leading NBFC for their 70+ branches which allows access to clients to deposit EMI any time of the day by entering their registered mobile number/customer ID hassle-free. It provides clients the option to deposit multiple/particular EMIs at one go and generates real-time SMS upon receipt of funds.
- **Leading Airline player**
Cash collected on flights and on the ground is deposited at the Retail cash vault 24x7 at any airport irrespective of base location which leads to early credit. We have deployed this at 40+ sites which helps in centralised monitoring of cash collections and also depositor-wise counterfeit detection.
- **Leading Eyewear provider**
CMS provides customised API integration with the POS system of 1000+ stores of a leading eyewear provider. This customisation helps auto-generate cash pick-up QR code—a unique feature that enables real-time data update and reconciliation.
