Commenting on the performance of the Company, **Mr. Rajiv Kaul – Executive Vice Chairman, Whole Time Director and CEO** said, "Despite macro challenges, we have delivered a strong Q3 with industry-leading growth and earnings, which are up 26% YoY. This clearly is a reflection of our strong client engagement, robust business model and our employees' unwavering dedication. We continue to prioritize facilitation of seamless commerce through our integrated business services platform to BFSI and Retail sector. Our technology led solutions will enable growth as we focus to expand our market share. Looking ahead, and beyond, our longer-term business forecast continues to be strong."

With the banking sector reporting robust growth in credit and healthy margins, banks are refocusing on expanding and capturing a wider deposit share and deepening geographical presence. Banks are on a branch addition spree as they look to follow a 'physical plus online' approach as we have seen leading banks invest in adding new branches, particularly in under-penetrated tier-4, tier-5 and tier-6 centres according to RBI data.
