Mumbai, India – February 04, 2022

CMS Info Systems Limited (BSE: CMSINFO | 543441, NSE: CMSINFO) today announced financial results under Indian Accounting Standards (Ind AS) for the Quarter and Nine Month period ended December 31, 2021.

Commenting on the results, Rajiv Kaul, Executive Vice-Chairman, Whole Time Director and CEO, CMS Info Systems Limited said:

“We are witnessing a strong recovery in the economy and activity levels across our network of over 145,000 points. With ongoing consolidation trends in the sector, we continue to grow our volume and market share strongly across all our verticals of Cash management, ATM Managed Services and Tech Solutions. The company has grown PAT at 32% CAGR from FY19 to FY21 and we are focused on continuing our strong numbers.”

Market Highlights

The total Currency in Circulation (CIC) in India continues to grow at a robust rate and has crossed ₹ 30 trillion.

We continue to see a strong ATM RFP (Request for proposal) pipeline that demonstrates the banking sector’s focus on refreshing and expanding the ATM network in the country. The RFP pipeline in the sector stands at over 30,000 ATMs over the next 12 months.

Given the increasing preference for banks to deploy ATMs on an asset-light Brown Label ATM (BLA) model both for their expansion and replacement, there is a growing demand for high quality fully-compliant outsourced cash management services.

Result Highlights

Consolidated results for the quarter ended December 31, 2021 and YoY comparison with the quarter ended December 31, 2020

- Revenue from Operations for the quarter was ₹ 4,037 million, higher by 21.4% YoY driven by growth across both Cash Management and Managed Services businesses
